📍 Microsoft Research, VIGYAN, Lavelle Road, Bangalore, KA, India 560001

EDUCATION

December 2018 | Birla Institute of Technology and Science Pilani, GOA, India
August 2015 | Bachelor of Engineering (Hons.), Electronics & Instrumentation

EXPERIENCE

Present | Microsoft Research, Bangalore, India | Multilingual Systems
July 2019 | AI Center Fellow | Advisors: [Kalika Bali](#), [Monojit Choudhury](#)
Working in the intersection of NLP and ICTD, developing technologies for low-resource languages.

January 2019 | Research Intern | Advisors: [Kalika Bali](#), [Monojit Choudhury](#), [Sandipan Dandapat](#)
Developed an interactive machine translation interface on top of state-of-the-art transformer model to be used by [StoryWeaver](#) for faster turnaround of document translations. [\[Video\]](#)

December 2018 | Carnegie Mellon University, Pittsburgh, USA
July 2018 | Research Intern (Senior Thesis) | Advisor: [David Touretzky](#)
Worked on real-time obstacle avoidance and doorway navigation using a monocular camera on a low-computational robot like Anki Cozmo. [\[Video\]](#)

June 2018 | University College London, London, UK | Web Intelligence Group
May 2018 | Summer Research Intern | Advisors: [Emine Yilmaz](#), [Rishabh Mehrotra](#)
Worked on Task-based Information Retrieval, specifically on recommendation by leveraging external ontology. Used the principles of Bayesian Rose Trees and Distance Dependent Chinese Restaurant Process to design a dynamically enriched ontology. [\[UserContext\]](#)

August 2018 | NumFOCUS | Julia Computing
May 2018 | Google Summer of Code 2018 | Mentor: [Lyndon White](#)
Added data repository support to DataDepsGenerators.jl, which in turn creates registration blocks for DataDeps.jl. DataDeps.jl helps in downloading scientific data with ease. Talk on this work delivered at PyData New York City 2018.

August 2017 | Mozilla | Bugzilla
May 2017 | Google Summer of Code 2017 | Mentor: [Dylan Hardison](#)
Revamped the existing bug filing interface (`enter_bug.cgi`) into a single page reducing the multi-hop db access and unnecessary template rendering. This enhanced the speed and performance in bug filing.

Prasad Talasila, Mihir Kakrambe, Anurag Rai, **Sebastin Santy**, Neena Goveas, Bharat Deshpande

19th International Conference on Distributed Computing and Networking [ICDCN '18]

OTHER SELECTED PROJECTS

Analytics Sensor Test-Kit for Advanced Process Control

NOV'17 - MAY'18

Internet of Things with Nitin Sharma | Bill & Melinda Gates Foundation

- Designed a proof-of-concept IoT scalable interface to gather data from sensors installed at the waste water treatment site. This work was in collaboration with Ohio University, Cranfield University, and Caltech.

REST API: Custom Forms & GraphQL replacement

DEC'16 - MAR'17

With Dylan Hardison, Cameron Dawson & William Lachance (Mozilla)

- Made a custom form example application which uses REST API alongwith auth delegation callbacks to file the application as bugs on bugzilla.mozilla.org. This is to track the data generated through forms as bugs.
- Responsible for introducing the integration of GraphQL based APIs on Mozilla's automation tool, Treeherder. GraphQL queries only the required variables from the database, which improves the efficiency drastically.

AutolabCLI: Command Line Interface for AutolabJS

AUG'16 - DEC'16

CLI Application with Prasad Talasila

- Developed a CLI for AutolabJS which helps in committing the code to local gitlab server, submitting the code from gitlab server to the evaluation nodes and retrieving the results using a socket connection.
- Published on npm and currently in use for programming labs at the university.

TALKS AND CONFERENCES

PyData New York City

NEW YORK, NY, USA, OCT'18

Delivered a talk. Audience: Data Scientists

Invited to give a talk at PyData New York City 2018 on "Repeatable Data Setup for Repeatable Science" which was based on my Google Summer of Code work with Julia Computing.

Mozilla All-Hands (Group Meeting)

AUSTIN, TX, USA, DEC'17

Attended (Invite Only). Audience: Mozilla Employees

Invited to attend Mozilla's conference held at Austin, Texas. Discussion on future plans of Bugzilla, its modernization, and chalking out the milestone for the year of 2018.

Recent Advances in Computer Vision and Deep Learning

IIIT HYDERABAD, JULY'17

Attended. Audience: Academia and Industrial Researchers

Sessions taken by researchers from DeepMind, Facebook AI Research, Oxford VGG, INRIA, IITs. Various recent topics in Computer Vision and Deep Learning research were discussed.

OPEN SOURCE

- Contributed to Firefox with a globally distributed workforce of Mozilla's engineers.
- Member and Reviewer for [Mozilla B-Team](#), which handles Bugzilla and its operations.
- Managed [AutolabJS](#) (programming labs autograder) Github Organisation.
- Actively contributed to [scikit-learn](#), a python-based Machine Learning library, for a period of two months.

TEACHING AND LEADERSHIP ROLES

Present
August 2016

Open Source Development
Founding Member

It is an initiative to foster the open source culture and innovation at BITS Goa. Hosted several informative and technical sessions. Also responsible for making Student Welfare Division software.

| | |
|--------------------------------|---|
| May 2018 Jan 2018 | Computer Programming Course <i>Teaching Assistant</i> Responsibilities included evaluating labs, and helping students with the course in general. |
| December 2017 August 2017 | Introduction to Programming <i>Co-Instructor</i> Introduced students to multiple programming paradigms, object oriented concepts and functional programming using the language Python. |
| December 2017 December 2015 | Waves, Quark, BITS MUN <i>Lead Developer</i> Responsible for building and maintaining the websites of Waves (cultural fest), Quark (technical fest), BITS Model UN of BITS Pilani Goa. |

RELEVANT COURSEWORK

Computer Vision (16720B @CMU)*, Machine Learning, Data Mining, Symbolic Logic, Microprocessors and Interfacing, Digital Design, Signals & Systems, Computer Architecture, Neural Networks and Fuzzy Logic, Data Communication and Networks, Control Systems. (* = Auditing)

HONOURS AND AWARDS

Iken Scientifica, 2009 IIT BOMBAY, '09
Student Icon of India
 As a part of the winning team, got an opportunity to have a tête-à-tête with the former President of India, His Excellency, Dr. APJ Abdul Kalam. Entire [show](#) was aired on The National Geographic Channel and was supported by the Ministry of Science And Technology, Govt. Of India.

International Computer Fair And Seminar LUCKNOW, '12
Runner's Up
 Runner's up in the web design and implementation round at International Computer Fair and Seminar

National Standard Examination in Chemistry, 2015 TIFR, '15
State Topper
 Secured a State Top 1% in NSEC, the prelims to International Chemistry Olympiad

SKILLS

| | |
|--------------------------|---|
| Languages | Python, JS (Node), Julia, Perl, C, C++, SQL, VB.NET |
| Frameworks | OpenCV, Django, Flask, ExpressJS, ReactJS |
| Technologies | Heroku, AWS EC2, Travis CI, Docker, Vagrant, Grunt, GraphQL, PyTorch, \LaTeX , Git, AutoCAD |
| Operating Systems | Ubuntu, CentOS, macOS, Windows |
| Spoken Languages | English, Hindi, Malayalam, Gujarati |
